Homework: The impact of AI on Learning and Education

Please leave your homework in your pigeonhole outside the teachers' room by **Tuesday, 10 March, 7 p.m.**

Before watching the videos:

    a) What is Chat GPT (AI is not an answer)?
    b) What is a TED Talk?

⇨ Read the questions before you watch the videos. Take notes while you watch. You shouldn't have to watch them more than twice.

⇨ Your answers should be short – about 50 words per question. Please **indicate if you used** subtitles (English only).

Video 1: Is it still worth going to University? – The Economist, November 2025 (6:06)

https://www.youtube.com/watch?v=_O48-ao5_40

    a) What is the problem for young graduates in the West?
    b) Why? (two theories + the most likely theory)
    c) ~~At~~ IN the age of AI, what should you study at university?

Video 2: Is AI making us dumber? Maybe. Charlie Gedeon – TEDx Talks, September 2025 (10:32)

https://www.youtube.com/watch?v=m8WomdCLBqE

Voc: A query = *une requête, (ici : une question)*

    a) In your own words explain why Charlie Gedeon makes a difference between learning and education.
    b) What do the terms "cognitive offloading" and "dark pattern" mean in the video?

✎ **Writing: Share your point of view (don't forget to justify):**

    a) Why is critical thinking so important? How can you develop it? (100-200 words)
    b) Are you optimistic or concerned about the way AI will change the world? (100-200 words)
